

4 November 1970

MEMORANDUM FOR THE RECORD

PROJECT: POLAND

SUBJECT: Changes to the Language Control Register

STATINTL

A meeting was held on 3 Nov 1970 to discuss the changes to the Language Control Register that the Language Development Committee

STATINTL [REDACTED] described the following changes that are to take place and further indicated that there is no specific time limit when they should be incorporated in the Language Control Register. He further indicated that these changes are just polishing of the original product and that the Language Control Register is now serving the purpose of its design. A work order (form 930) will be forthcoming in the near future to OCS.

1. UNDERSTANDING will replace WRITING in the proficiencies required.
2. Personnel that have 'disclaimed' a language proficiency will no longer be printed.
3. The 'DISCLAIMED' indicator and column should be removed.
4. MINIMUM REQUIREMENT in the RECAP should be deleted from all language units.
5. The '\$' indicator that precedes all positions that have not been designated as language positions should be removed.

Following the discussion of the changes to take place,
[REDACTED] indicated that PMCD/OP was having problems with
components that were reorganizing organizational components and
not indicating the status of the associated language requirements.
[REDACTED] said that he would indicate the problem to the
Language Development Committee to see if some satisfactory
solution could be worked out.
